

Organic dyes

for the specialized chemical industry (fuel, lubricants
and other products of petrochemical processing)

General information

Our range of specialized organic dyes consists of of the five most widely used dyes in the industry, covering the entire spectrum products. • Meet OSHA and EPA criteria. needs of petrochemical processing (**production of gasoline, diesel, lubricants materials, base oils, various greases and lubricants**):

Барвники Chromatech	Color and characteristic
CHROMATINT® YELLOW GRHF	Yellow light-resistant organosoluble
CHROMATINT® GREEN HF	Green light-resistant organosoluble
CHROMATINT® RED IK	Red light-resistant organosoluble
CHROMATINT® BLUE ULHF 2804	Blue light-resistant organosoluble
CHROMATINT® BROWN 4ULHF	Brown light-resistant organosoluble

Specialized Chromatech organic dyes providing the following advantages in use:

- Perfect color selection to ensure the right color for yours products.
- Long-term color stability, resistant to fading or change over time.
- All dyes are supplied in liquid form, which do not create dust use.
- Quickly and easily mixed with products, which provides significant saving energy during mixing.
- Ease of manufacture: our high-quality liquid dyes always unchanging.
- Meet OSHA and EPA criteria
